

The banner features logos for NiDA, OCM (The Office of the Council of Ministers), and the Royal Government of Cambodia at the top. Below these are logos for IDRC, CRDI, and PAN Localization. The central text in Khmer and English reads: 'កម្មវិធីបណ្តុះបណ្តាលកុំព្យូទ័រជាភាសាខ្មែរ និង វិឃាម (ស្តង់ដារ) ខ្មែរយុទ្ធសាស្ត្រ សម្រាប់មន្ត្រីរាជការ ខេត្ត ព្រះវិហារ' and 'KHMER FOSS TRAINING KHMER & STANDARD UNICODE FOR GOVERNMENT OFFICIAL IN PRAEH VIHEAR PROVINCE'. The background shows a night view of Angkor Wat with fireworks. A woman in traditional dress is in the bottom right corner. The date '13-24 July 2009' and location 'Noy Shoung, NiDA DSG, HRD & FOSS & ITEE' are at the bottom.

FOSS Master Plan

CAMBODIA 2005 NiDA

YEAR OF THE PENGUIN

THIS YEAR WE HAVE:

- Developed a Master Plan for FOSS
- Coordinated FOSS efforts inside the country into an Action Plan
- Created a FOSS Unit in the Government
- Strongly advanced on localization, training materials, documentation, and getting ready for distribution.

FOSS MASTER PLAN

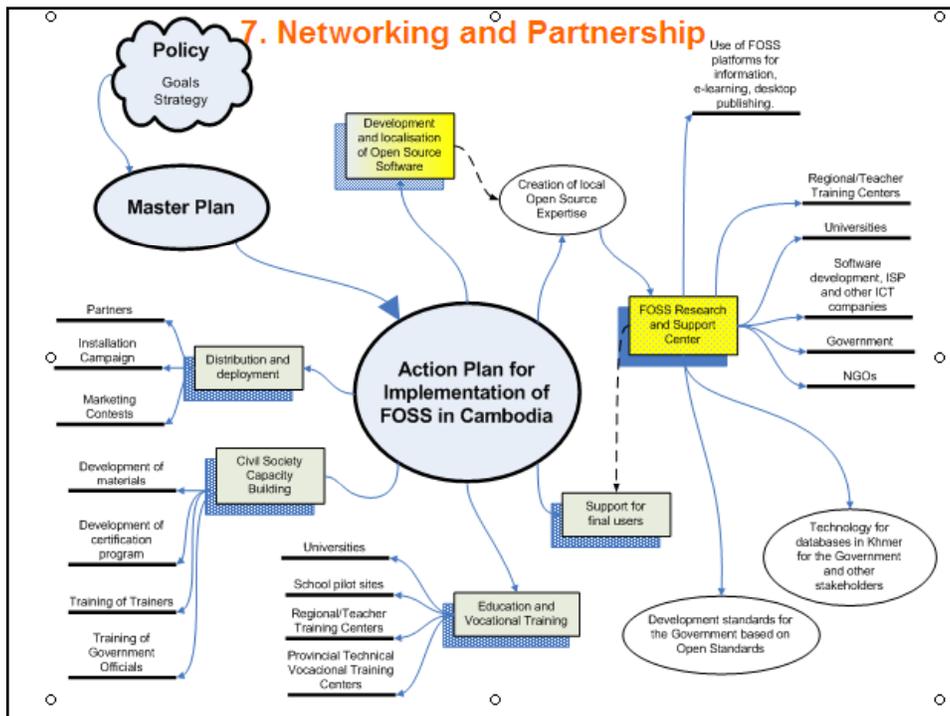

Stage 1 LOCALIZATION & PREPARATION Localization of Linux distributions Open Source applications to Khmer Documentation and Training materials in Khmer for Khmer applications Develop support for Khmer language in Linux Set up of a Open Source unit in the Government	Stage 2 INSTALLATION, TRAINING, LINUX DISTRO, & RESEARCH CENTER Application Distribution Campaign directly and through university to all public computers in the country Train existing primary school computer teachers Certification Train Government officials and school teachers Develop a Linux Distribution in Khmer Create FOSS Research and Support Centre, before Open Standards	Stage 3 MIGRATION, TRAINING & DISTRIBUTION OF EXPERTISE Linux Installation Campaign directly and through partners together with migration of Government computers Advance existing primary school computer teachers to Linux Train Government officials and school teachers on Linux Migration of Government processes to Linux The Open Source Research Center from Open Source hardware and software for University and Industry	Stage 4 CONSOLIDATION & SUSTAINABILITY Complete migration of Government Computers to Linux Availability use of Open Source in the private sector Availability use of Open Standards in government processes Establish sustainability procedures for Research and Support Centre
--	--	---	--

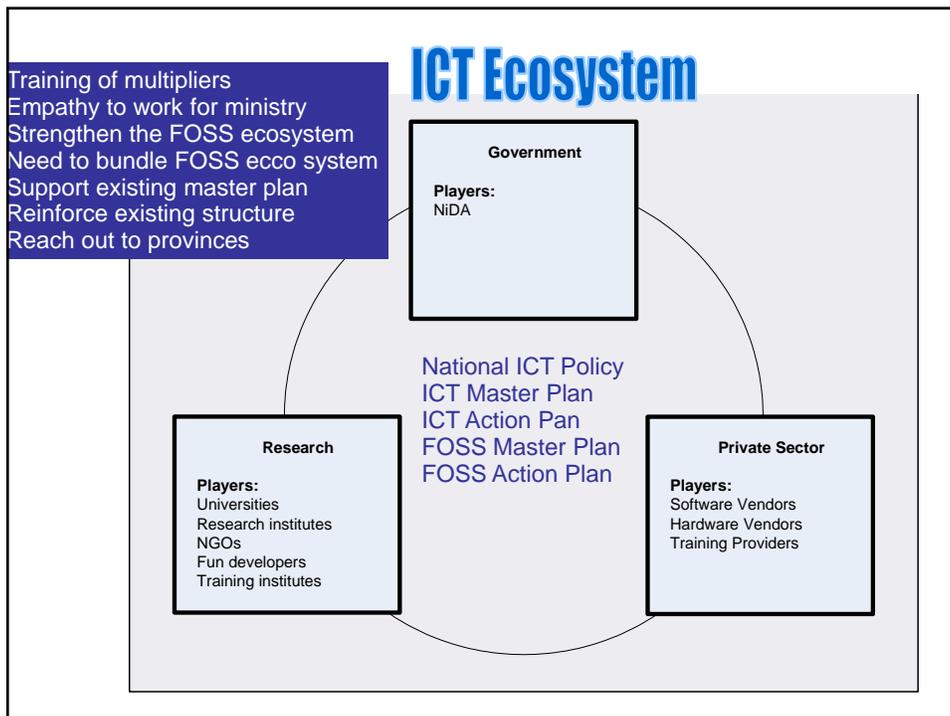

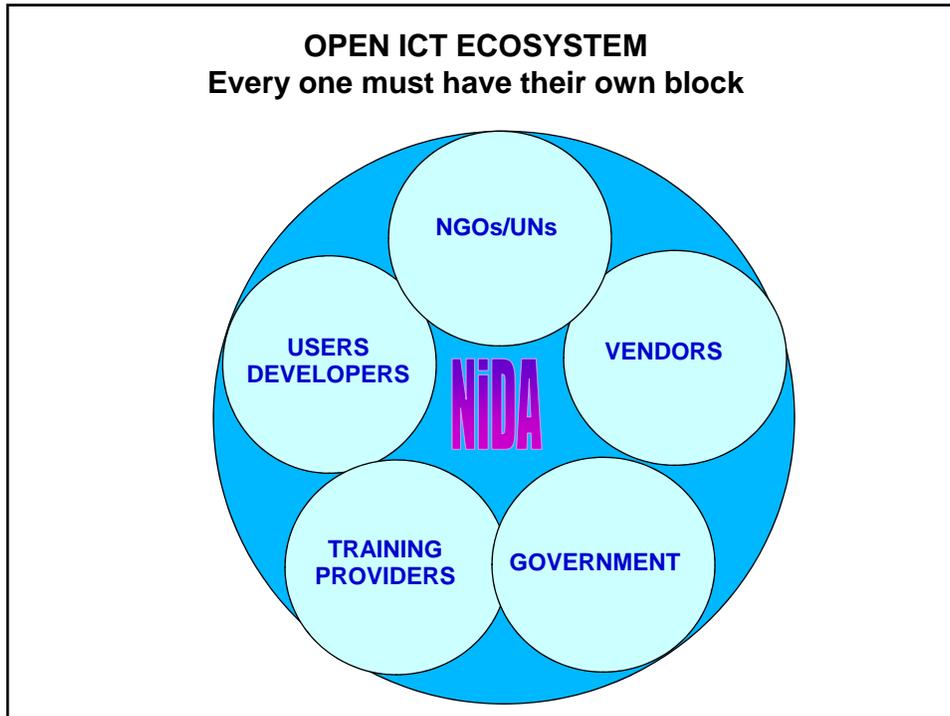

STATE OF THE PROJECT

- Standardization accomplished. Unicode fonts and keyboards available.
- Support of Khmer on Windows and Linux ready.
- Khmer applications already localized: Firefox, Thunderbird installed in Cambodia for developing countries and OpenOffice 2.0.
- Documentation and training materials for internet applications developed.
- Working on training materials for OpenOffice 2.0
- Open Source Department of NiDA created.
- Contacts with computer vendors, who have agreed to install in all new computers.
- Supporting of Government Officials to use of Open Source has already started.

CONCLUSIONS

- Cambodia is open for the use of Open Source software. Localization turns users and potential users into dependents of Open Source. The possibilities of change are very real.
- Change needs to take place now. There is a two-year window of opportunity.
- Cambodia has the expertise, the energy and the Plan to make it work.
- The only barrier is the lack of funding to start the first three years of the project.

Networking and Partnership

- Internet Café
- Training Provider (universities, Institutes, Colleges, Training Centers)
- PC and Software Vendors
- SME
- Regional Teacher Training Center
- Teacher Training Center
- Regional Technical Training Center
- Provincial Training Center

Note: all training we are focus in multiplier training channel,

- First training, NiDA conduct training, NiDA provide all curriculum, training material, handout, exercise paper etc
- Second training, NiDA conduct training our partner become our assistant
- Third Training our partner conduct training and NiDA provide their assistant to ensure that our partner feel more confident
- Forth, fifth so on NiDA provide support

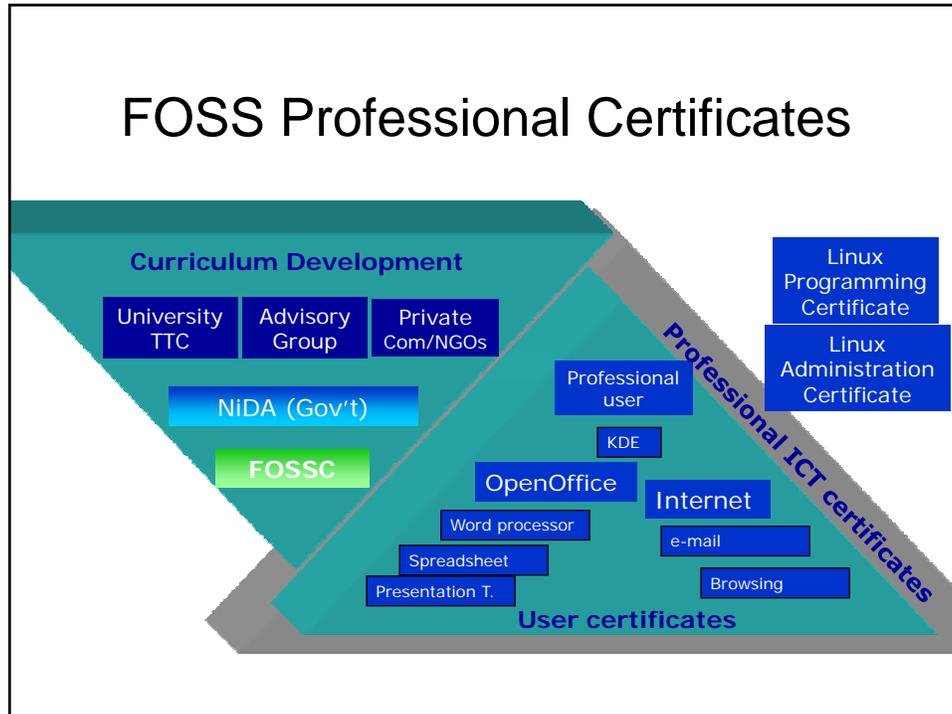

RESEARCH AND SUPPORT CENTER

- FOSS Developer Group
- Call Center
 - Support online
 - Assist FOSS User Group
- R&D
- Survey on ICT Current Labor Market
- Survey on Training Provider
- Training/Learning Need Assessment
 - Conduct the survey what is the priority skill
 - Priorities the skill and prepare curriculum
 - Prepare training material base on the curriculum
 - Review the curriculum and modify upon course evaluation
 - Contest
- NiDA Collaboration

Target Group

- Public Sector Employees
- CIO from all ministries
- IT Supporters
- School Teachers
- University Students
- SMEs
- End Users
- Farmer - Communities
- Grassroots level of students

Curriculum Development

- SuSe [Linux 10.2](#)
 - [Administrator](#)
 - [Beginner](#)
- OpenOffice 2.2
 - Khmer Standard Unicode
 - [Writer](#)
 - [Cal](#)
 - [Impress](#)
 - Base
- [Thunderbird](#)
- [FireFox](#)

Training Methodology

- Master Trainer 45
 - Current trainer, NiDA conduct training for conduct training in FOSS
- Trainer 550
 - Select the good trainee who wheeling to conduct training to others and NiDA conduct training for them on Master Trainer
- Power End User Over 10,117
 - Training for free and free material, the only conduction is to conduct training and support other and we call them again for the other training for the trainer program

ICT for all

E-Strategies

- Policies need strategies
- Strategies need action plan
- Action Plans need implementation

Strategies are a set of concrete directions that address policies

Policies become action-oriented through Strategies

Without Strategies, policies will not have much meaning

KHMER FOSS TRAINING IN ODDOR MEANCHHEY PROVINCE (67 TRAINEES)

HAND OVER TRAINING MATERIAL, KEYBOARD, TEXT BOOK AND ACTIVITIES 13-14 JULY 2009

KHMER FOSS TRAINING IN KOH KONG (60 TRAINEES)
